

Neuroradiology Master Class Workshop – Hilton Garden Inn, Casablanca

Neuroradiology Master Class Workshop – Session 1

Casablanca, April 2025

As part of a collaboration between **Promedstore Imaging**, the **IUOIR** (International Union of Interventional Radiologists) and the **Radiology Department of CHU de Lyon**, a Neuroradiology Master Class Workshop was held on **Friday, April 18, 2025** at the *Hilton Garden Inn Hotel* in **Casablanca, Morocco**.

This continuing medical education day, organized under the auspices of the **FMC Radiology Community**, brought together Moroccan radiologists around a rich and demanding scientific program, led by two renowned experts:

- Prof. François Cotton, neuroradiologist at CHU de Lyon (France)
- Dr. Abdelilah Smihi, radiologist based in Paris (IGP)

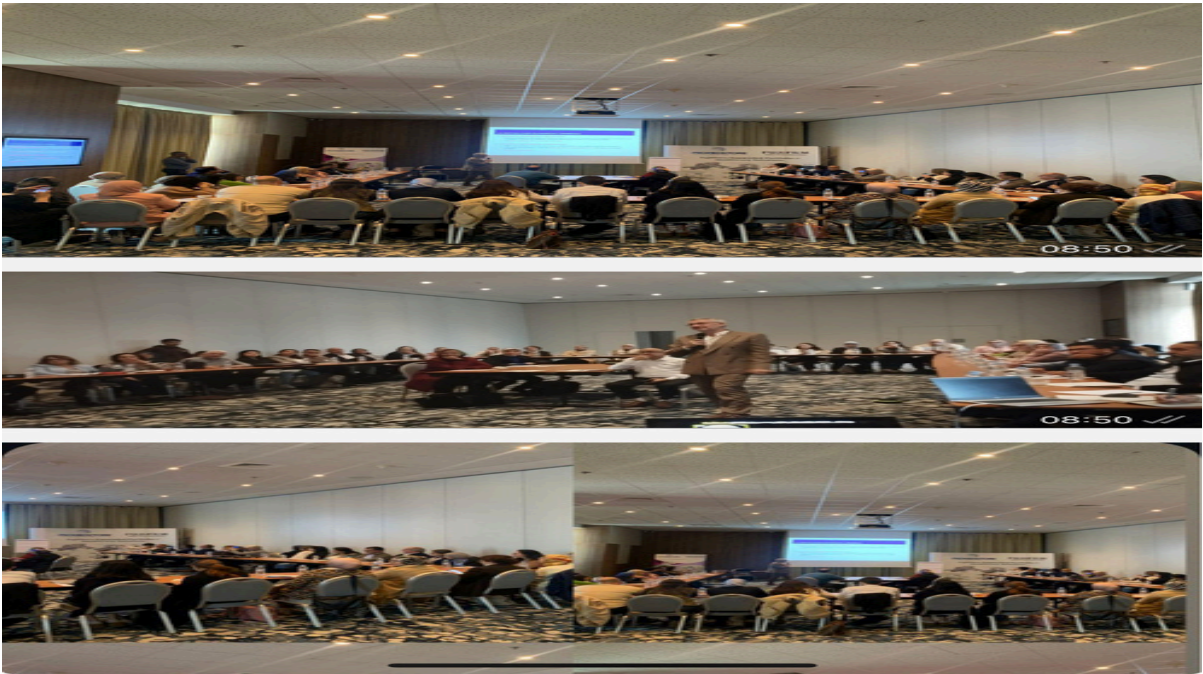

Prof. François Cotton (CHU de Lyon) addressing the participants during the workshop.

Program Highlights: 12 Clinical Neuroradiology Topics

Participants benefited from in-depth teaching on a wide range of current topics, including:

- New MRI sequences and their added value compared to standard sequences
- Multiple Sclerosis: protocols, updated recommendations and reading pitfalls
- Dementia and Parkinson's disease
- Cerebral ischemia: reading pitfalls and indications for thrombolysis and thrombectomy protocols
- TSA Angio-MRI: protocol with and without contrast injection
- Approach to intracranial masses
- MRI spectroscopy: reading and diagnostic orientation
- Spectral CT imaging (presented by Dr. Smihi)
- Cerebral perfusion: role, protocol and post-processing
- Fistulas and arteriovenous malformations (AVM)
- White matter hyperintensities beyond MS and leukoaraiosis
- Discussion of clinical cases presented by participants

Engaged audience of Moroccan radiologists during the scientific sessions.

Highlights from the twelve clinical neuroradiology topics covered throughout the day.

An Intensive and Interactive Day

The workshop was designed in a spirit of exchange and clinical practice, with active participation from attending professionals. The day was deliberately intensive, as the invitation humorously reminded attendees:

"A missed alarm or a delayed train will not stop us from starting on time – the day is long and packed."

This event reflects the **IUOIR's commitment** to supporting continuing education for radiologists across the French-speaking world and strengthening ties between **European and African medical teams**.

Group photo of the speakers and participants at the close of the workshop.

Commemorative trophy from the FMC Radiology Community presented to Prof. François Cotton.
